# Why choose Whitesales?

We're the UK's leading supplier of high-performance flat roof rooflights, smoke vents and access hatches, roof edge trims and accessories for all budgets, and any building.

Our products are easy to install, rigorously tested by independent experts, compliant with all current building regulations and legislation, and tried and trusted by professionals.

To back up our high performance products, we guarantee a service that's second to none.

- Next-day delivery of most standard products anywhere in the UK, thanks to outstanding facilities, high stock levels and a number of strategically sited depots
- Input from a technical team with in-depth knowledge of our products and the latest legislation
- Complete support that includes site surveys and condition reports, CAD drawings and even bespoke design for more challenging projects

## High-performance products

Our range includes rooflights with the best U-Value performance, the fastest-opening smoke vents, and the strongest paving support pad on the market. Reliability, strength, longevity and all-round environmental performance are our watchwords. Our products readily withstand the elements and are suitable for use with most flat roof systems, including single-ply, felt, hot-melt, asphalt, liquid, GRP and metal roofing.

## Easy installation

All our rooflights can be easily installed to a standard builders upstand. For ultimate speed and thermal performance, we recommend our PVC or GRP Em-Curb upstands. Products come with complete installation instructions, fixing kit, video guides and are backed up with full support from our team.

## Nationwide coverage and next-day delivery

With depots strategically located in England and Scotland, we offer nationwide next-day delivery direct to site on our own transport or via overnight carrier service. You can order selected products as late as 2pm for next-day delivery.

## Technical advice and support

We are here to give you all the advice you need. Many of our clients depend on us for site surveys, roof-plan CAD drawings, condition reports, budget costings, technical guidance, specification writing and fully detailed quotations. You'll also have access to a comprehensive library of product data sheets and CAD drawings, along with NBS specifications.

Once the job is complete, our technical aftersales team is on hand to make sure you're completely happy with your product and our service.

## Guarantees

Whitesales rooflights have an expected life of at least 25 years. All of our products are guaranteed for 10 years, including insurance-backed guarantee on request. You also have the peace of mind that our professional indemnity insurance covers all of our designs and recommendations.

## An environmentally friendly partner

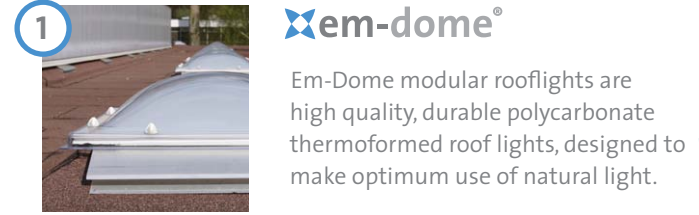

As well as supplying roofing products that are environmentally friendly in use, we make sure the way we manufacture minimises environmental impact. We source raw materials responsibly, refine our manufacturing processes, reduce waste and encourage recycling, re-use and energy conservation.

## Polycarbonate rooflights

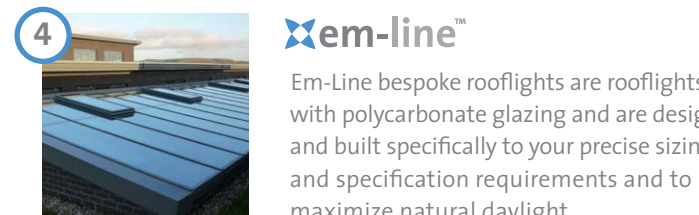

**em-dome**<sup>®</sup>  
Em-Dome modular rooflights are high quality, durable polycarbonate thermoformed roof lights, designed to make optimum use of natural light.

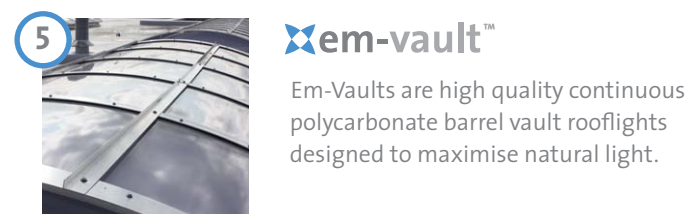

**em-tube**<sup>™</sup>  
Em-Tube Tubular Skylights are a highly effective means of transmitting daylight into internal rooms or areas lacking in natural light.

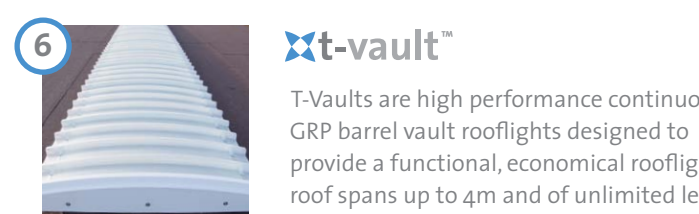

**em-line**<sup>™</sup>  
Em-Line Vertical glazing is a fast and simple to install, cost effective multiwalled polycarbonate cladding system for applications requiring excellent thermal value, light transmission and durability.

**em-line**<sup>™</sup>  
Em-Line bespoke rooflights are rooflights with polycarbonate glazing and are designed and built specifically to your precise sizing and specification requirements and to maximize natural daylight.

**em-vault**<sup>™</sup>  
Em-Vaults are high quality continuous polycarbonate barrel vault rooflights designed to maximise natural light.

**t-vault**<sup>™</sup>  
T-Vaults are high performance continuous GRP barrel vault rooflights designed to provide a functional, economical rooflight for roof spans up to 4m and of unlimited length.

## Glass rooflights

**em-glaze**<sup>™</sup>  
Em-Glaze modular flat glass rooflights are high-quality, aesthetically pleasing prefabricated flat glass rooflights.

**em-glaze**<sup>™</sup>  
Em-Glaze bespoke rooflights are glass glazed and designed and built specifically to your precise sizing and specification requirements, and to maximize natural daylight.

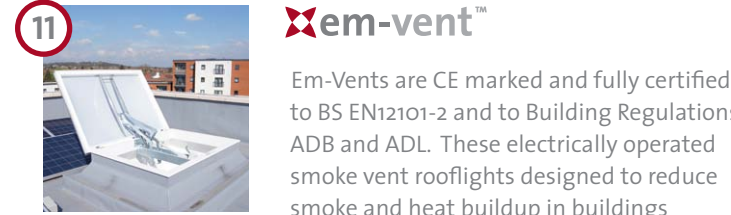

**em-glaze**<sup>™</sup>  
More daylight, available from stock. The new Em-Glaze range of modular ridgelights offers a perfectly designed solution for maximising natural light.

**em-view**<sup>™</sup>  
The Em-View self-cleaning rooflight incorporates a roof dome and double glazed glass unit securely housed in an insulated PVC rooflight frame, providing exceptional sound insulation and thermal value.

## Smoke vents & access hatches

**em-vent**<sup>™</sup>  
Em-Vents are CE marked and fully certified to BS EN12101-2 and to Building Regulations ADB and ADL. These electrically operated smoke vent rooflights designed to reduce smoke and heat buildup in buildings in the event of fire.

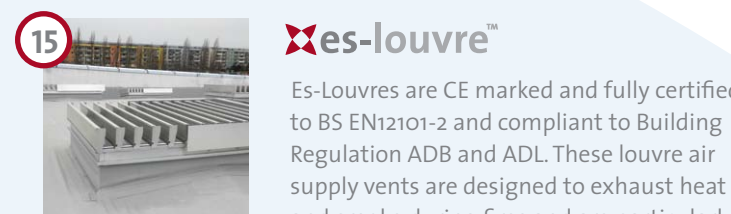

**es-vent**<sup>™</sup>  
Es-Vent Smoke Vent Industrial are fully certified single and double leaf electrically operated smoke vents for the exhaust of smoke and heat from industrial buildings in the event of fire.

**em-hatch**<sup>™</sup>  
Em-Hatch access hatches are designed to allow access to and from roof areas and can form part of a fire escape route, be used for accessing roof mounted plant, equipment and for other maintenance tasks.

**es-hatch**<sup>™</sup>  
Es-Hatch roof access hatch industrial allows access to and from roof areas and can form part of a fire escape route, be used for accessing roof mounted plant and equipment and for other maintenance tasks.

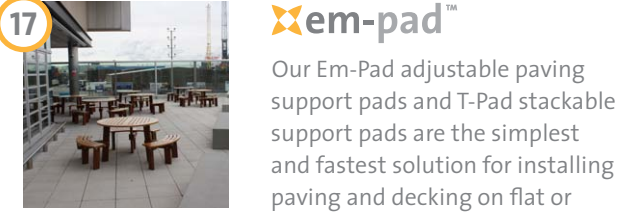

**es-louvre**<sup>™</sup>  
Es-Louvres are CE marked and fully certified to BS EN12101-2 and compliant to Building Regulation ADB and ADL. These louvre air supply vents are designed to exhaust heat and smoke during fires and are particularly suited to locations exposed to high winds.

## Flat roof trims & accessories

**em-trim**<sup>®</sup>  
Em-Trim and T-Trim are high quality flat roof trims which give a clean, professional finishing detail for the edge of any flat roof, suitable for both new build and refurbishment applications.

**em-pad**<sup>™</sup>  
Our Em-Pad adjustable paving support pads and T-Pad stackable support pads are the simplest and fastest solution for installing paving and decking on flat or sloping surfaces.

**em-bar**<sup>™</sup>  
Em-Bar is a neat and efficient alternative to lead flashing and requires no chases to be cut prior to installation. It is a high quality, durable termination bar manufactured from pultruded glass fibre reinforced polyester.

**Other Accessories**  
Whitesales supply a full range of accessories to complete your project to the highest standard, including termination bars, outlets, pipe sleeves and breather vents, and fixings and sealants.
